

# PARTNERSHIP FACTSHEET

**BUSINESS**  
BASED ON FRIENDSHIP

# INTRODUCTION

We understand that our business model is based upon developing successful partnerships, trust and transparency. United is the key in our name. Our worldwide contacts take advantage of our expertise in the FX market. Please be aware that for any partner, our criteria is that we are looking for people with FX in their DNA. Our partners are our friends and we all share our passion to beat the forex markets using complex algorithms. We do not have a sales office since our products are selling themselves. Our commission structure is based on long term relationships which benefit both the client and thus our partners. We only use top tier banks and fully regulated brokerages.

## WHAT WE OFFER?

We offer a partnership in one of the fastest growing markets in the financial industry. Estimates show that already 70% of all traders use algorithms. You will be able to make your clients aware about how to become profitable trading forex using topnotch algorithms. As partner you will be informed real time about new or updated products. The remuneration package is based on a 0.5pip (\$5) fee per lot traded along with full brokerage reporting solutions. We also design specific marketing materials based on your criteria.

### Country manager
